A water main shutdown will affect your residence on Thursday, July 14, 2022, from 9:00 a.m. to 5:00 p.m.

The shutdown is necessary for our contractor to abandon an old water service and install a new fire hydrant.

Partial lane closure in the areas is expected. Traffic control will be provided by the contractor.

You may notice some discolored water when the water service resumes after the shutdown. This should clear after running the faucet.
